

(From Inside Bartender)
Do you get a message that
you have exceeded your
printer licenses in Bartender?

Open up License server
application in Bartender program
group to understand the problem.
Contact Seagull Scientific support
(425) 641-1408.

From Inside Bartender Do you get
a message that the Seagull
License server can not be
reached?

Please open License server application on the pc (if this is a single printer license) or on main pc/ server , that is running License server. Make sure License server service is running and can be reached. From Inside Bartender go to "Administer" menu at top of the Bartender designer screen. Go to "Licensing Setup" dialog box. Try ""Test" button. If connection fails try adjusting firewall / and Anti Virus "exception" settings.

If you are not able to print your
Label Template from Bartender
directly please contact Seagull
Scientific support at (425) 641-
1408. You may also contact
Accuware at (888) 732-0500
This is a bartender related issue ,
not Label Connecor.
